## Agenda

1. Call to order - 5:30 PM
2. New business
3. 5:30 PM Site Visit, Beckley Street. Meet at Beckley Street and Hunter Avenue (about 500 feet from Saint Monica's Cemetery) to view representative parcels from this neighborhood and review residential zoning constraints. Map: https://goo.gl/maps/uwfguAe2CHC6L93DA
4. 6:15 PM Site Visit, Brooklyn Street. Meet near 21 Brooklyn Street (about 500 feet from Prospect Street) to view representative parcels from this neighborhood and review residential zoning constraints. Map: https://goo.gl/maps/Fg3NPNMzQ1jMJUG49
5. Adjourn

Neighborhood Site Visits

Figure 2-1: Dimensional Standards for Lots

2005.F Setbacks. Development must meet applicable setback requirements as follows:
(1) All development and structures subject to this ordinance must be set back from streets and property lines as shown in the dimensional table (see Section 2116) unless otherwise specified in this ordinance.
(2) Lots with frontage on more than one street must meet front setback requirements on each street, and must meet side setback requirements on the remaining sides.
(3) Setback requirements will apply to lots in common ownership to the same extent as if the lots were not in common ownership.
2005.G Height. No structure subject to this ordinance may exceed district height limits as specified below unless otherwise specified in this ordinance:
(1) Minimum and/or maximum height requirements for principal structures are shown in the dimensional table (see Section 2116) for each zoning district.
(2) Accessory structures must not exceed the maximum height specified in Figure 3-1, or 36 feet if no maximum height specified in Figure 3-1.
(3) Height limits do not apply to:
(a) Belfries, spires, steeples, cupolas, domes or similar architectural features not used for human habitation; and
(b) Skylights, parapet walls, cornices, chimneys, ventilators, bulkheads, or mechanical equipment usually located on the roof level, provided that such features are limited to the height necessary for their proper functioning.
(4) Height limits do apply to flag poles, light poles, signs and similar freestanding structures not located within public rights-of-way.
(5) Where a minimum building height is specified, that height must be maintained along the entire facade for a depth of at least 30 feet or the depth of the building, whichever is less.
(6) When height is measured in feet, the measurement will be taken from the average finished grade at ground level to the highest portion of the structure excluding the building elements listed in Paragraph (3) above.

## 2006 Residential Density Standards

2006.A The number of dwelling units on a lot must not exceed the maximum density specified in the applicable zoning district except:
(1) Accessory dwellings approved under Section 3202 will not count as a dwelling unit for the purposes of calculating density.
(2) A pre-existing small lot may be developed in accordance with Section 1303 irrespective of whether it will comply with the residential density standard for the applicable district.
