

Traffic Alert

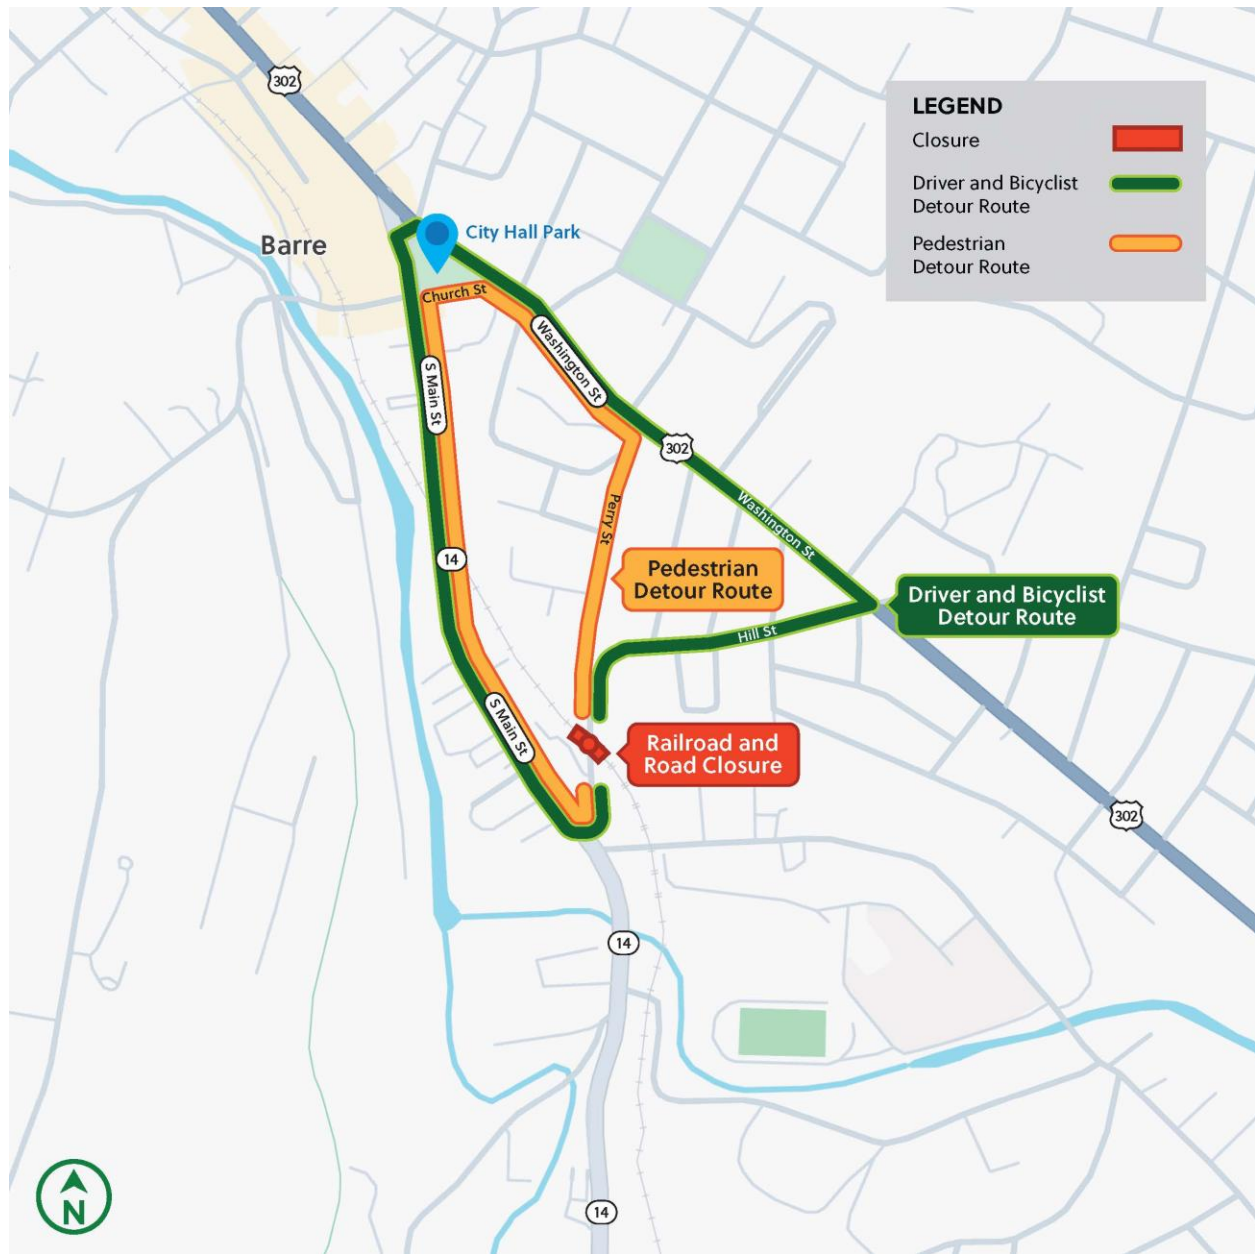

Barre City Railroad Crossing Projects Barre City STP 2961(3) and STP 6000(32)

DATE ISSUED: Tuesday, September 29, 2026

CITY OF BARRE, VT: Tomorrow, Wednesday, September 30, from 9 a.m. to 2:30 p.m., Hill Street will be fully closed at the railroad crossing between Vermont Route 14 (VT 14) and Perry Street. This closure will allow crews to complete work at the railroad crossing, including compacting the crushed stone beneath the tracks, making final track adjustments, and installing the new concrete crossing panels.

The temporary road closure is scheduled between the morning and afternoon school bus commutes to accommodate school bus operations. A signed detour will be in place for all traffic. The road is expected to reopen at 2:30 p.m.

- Drivers and cyclists will be detoured from the South Main Street/Ayers Street/Hill Street intersection north on South Main Street, right onto U.S. Route 302 (U.S. 302) near City Hall Park, and right onto Hill Street near Stone's Service Station. Drivers and cyclists at the Perry Street/Hill Street intersection will follow the same route in reverse.
- Pedestrians will be detoured via South Main Street (VT 14), Church Street, U.S. 302, and Perry Street.
- Detour signage is posted along all routes to guide travelers. See the detour map below for more information.

Click on the detour map above to enlarge.

LOCATION: The railroad crossings on South Main Street (Vermont Route 14) near the NAPA Auto Parts store, and on Hill Street just north of its intersection with VT 14 and Ayers Street in the City of Barre, VT.

PROJECTED COMPLETION: Fall 2026
