## CONDITIONS & SIGNATURE

- A. A one-time permit extension may be granted, for justifiable cause, at the discretion of the Permit Administrator and/or the Code Enforcement Inspectors to extend up to 2 years.
- B. Permits **expire** if the project is not completed within 3 years and are administratively closed, which can delay the sale of property or refinancing etc.
- C. If a permit expires before the applicant substantially completes the construction, or commences the use authorized by the permit, the applicant must apply for a new permit and any other associated development approvals.
- D. Amended Permit Applications for multiple permits must be submitted separately.
- E. Any improvements completed to date must conform to the conditions of the permit and any associated development approvals.
- F. There have been no amendments to the Zoning, Building, Electrical, or Flood Hazard Ordinances that would have caused a material change in the decision(s) on the original application.
